The Chair in Construction Engineering and Management

SHORT COURSE

Financial & Economic Management

(2 + 3 CPD POINTS)

Part 1: 21 & 22 August 2017 & Part 2: 23, 24 & 25 October 2017

A short course on Financial & Economic Management will be presented at the Chair in Construction Engineering and Management of the Department of Civil Engineering at Stellenbosch University.

Industry participants are invited to attend the course for either 2, 3, or 5 CPD points (21 – 21 August 2017 and/or 23 - 25 October 2017).

The aim of this course is to provide managers, engineers and other built environment professionals with a better understanding of, and the tools needed for, effective financial & economic management.

The course will therefore introduce the participants to the principles of financial & economic management and project finance. Participants will learn where and how value is created within a company, as well as to grasp the use of project financing for the delivery of public/private projects.

The course will be focused on the practical application of the above concepts, enabling participants to apply these techniques immediately.

The following persons should attend the course on Financial & Economic Management:

- Managers, engineers and other persons at local authorities who are involved in infrastructure planning, management and delivery;
- Managers, engineers and allied professionals at consulting practices involved with construction projects;
- Managers, engineers and allied professionals at construction companies.

FINANCIAL & ECONOMIC MANAGEMENT
