

CURRICULUM VITAE - William Peter (Billy) Boshoff

FULL NAMES : William Peter Boshoff

NATIONALITY : South African

LANGUAGES : English (Excellent)
Afrikaans (Excellent)

QUALIFICATIONS : BEng (Civil) 2001 Stellenbosch University
PhD (Civil Engineering) 2007 Stellenbosch University

RESEARCH INTERESTS:

Fibre reinforced cement-based materials, from material to structural level.
Time-dependant behaviour of cement-based materials, with special focus on creep of cracked fibre reinforced concrete.
Cracking of concrete, with a special interest in early age cracking.
Eco Friendly Construction Materials, including earth masonry unit, alkali activated materials.
Computational mechanics with special interest in numerical modelling of non-linear cement-based materials.

WORK EXPERIENCE:

Jan 2014 to present: Professor, Civil Engineering Department, Stellenbosch University.

Undergraduate and Postgraduate teaching and curriculum development.
Postgraduate supervision.
Research in the field of construction materials, including sourcing of funding.
Academic, administrative and financial management of research projects.
Academic and departmental administration.
Coordinator for the BEng (Civil) program (2014 and 2015), thus responsible for curriculum development and compliance with institution and ECSA requirements.
Head of the Unit for Construction Materials (UCM) (2014 to present), responsible for the launch of the UCM, strategic planning and implementation, sourcing of funding, recruitment of postgraduate students, facilitating collaboration with local and international industry, managing the UCM team.

Jan 2010 to Dec 2012, August 2013 to Dec 2016: Head: Division for Structural Engineering, Civil Engineering Department Stellenbosch University.

Manage Division for Structural Engineering which consists of 19 permanent staff members (12 academic staff members) and normally around six temporary academic staff members.
Member of Civil Engineering Department's executive committee.
Coordinate Postgraduate Studies in the division.
Responsible for strategic planning for the division, including staff, funding, laboratory and curriculum.

Jul 2011 to Dec 2013: Associate Professor, Civil Engineering Department, Stellenbosch University.

Undergraduate and Postgraduate teaching and curriculum development.
Postgraduate supervision.
Research in the field of construction materials, including sourcing of funding.
Academic, administrative and financial management of research projects.
Academic and departmental administration.

Jan 2008 to June 2011 : Senior Lecturer, Civil Engineering Department, Stellenbosch University.

Undergraduate and Postgraduate teaching and curriculum development.
Postgraduate supervision.
Research in the field of construction materials, including sourcing of funding.
Academic and Departmental administration.

Feb 2007 to Dec 2007 : Post Doctoral Fellow, Civil Engineering Department, Stellenbosch University.

Responsible for the research group with regard to the advancement of cement-based materials, in particular SHCC (Strain Hardening Cement-based composites).

Guidance to Postgraduate students with regard to their research projects.

Responsible for initiating and sustaining international collaboration with regard to SHCC research. International partners are Dresden Technical University, Danish Technical University and Delft Technical University.

Responsible for teaching the concrete, masonry and timber part of the undergraduate Building Materials course.

Responsible for developing and teaching a course on experimental methods.

Feb 2004 to Jan 2006 : Research assistant for the CDSI research group at the Structural Engineering Division, Civil Engineering Department, Stellenbosch University.

Responsible for guidance of undergraduate and postgraduate students, design of test setups for the research group as well as specific research tasks.

Jan 2004 to Dec 2006 : Manager of Structures Laboratory of Civil Engineering Department, Stellenbosch University.

Responsible for the management of personnel, technical support for research, upgrading of instruments and testing equipment as well as performing commercial research.

Responsible for developing and teaching a course on experimental methods.

2002 – BKS Consulting Engineers, Durban Office

300 hour project for Toyota SA.

In depth investigations of the structural integrity of a 12 000 m² warehouse at the Toyota SA Plant in Durban. The findings were detailed in a report.

RESEARCH PROFILE:

Google Scholar: H-index = 12, Citations = 397

Scopus: H-index = 7, Citations 205

Journal publications: 19 published, 2 in press, 6 submitted, 3 in draft form

Conference publications: 59 published

National Research Foundation rating **Y2** 2011 - 2015

CURRENT MEMBERSHIPS:

Concrete Society of Southern Africa (Professional Voluntary Association of ECSA (Engineering Council of South Africa)) since 2004

Member of **fib** (International Federation for Structural Concrete) since 2012

Active member of RILEM (International Union of Laboratories and Experts in Construction Materials, Systems and Structures) since 2009

COMMITTEES:

Board member of the Concrete Society of Southern Africa, 2010 to present

President of the Concrete Society of Southern Africa, 2012 to 2014

Deputy of Delegation for the South African National Member Group of **fib**, 2013 to present

Head of Delegation for the South African National Member Group of **fib**, 2012

Chairman of Editorial Committee of CSSA and Editor in Chief of the DoHE accredited journal, Concrete Beton, 2010 to present

Member of Organising Committee of the 2012 Rilem Week in Cape Town

Member of Scientific Committee of International Conference BEFIB 2012 in Portugal

Member of Scientific Committee of the Fourth **fib** Congress 2014, Mumbai

Member of Scientific Committee ICCMATS 2014: International Conference on Construction Materials Engineering, Structural Performance and Durability (ICCMATS), Johannesburg, South Africa

Chairman of Organising Committee of the International Conference of Advanced Concrete Materials held Nov 2009 at Stellenbosch

Member of the Scientific Committee for the 4th international conference on Concrete Repair, Rehabilitation and Retrofitting (ICRRR) 2015, Leipzig, Germany

Member of Scientific Committee for SFC 2016, Sustainable Futures Conference, Architecture and Construction In the Global South, Nairobi, Kenya, 2016

Member of Scientific Committee of 9th RILEM International Symposium on Fiber Reinforced Concrete (BEFIB 2016), Vancouver, Canada

RILEM Technical Committee 240 FDS, A framework for durability design of fibre reinforced strain hardening cement-based composites (SHCC), 2010 to present

- RILEM Technical Committee 260 RSC – Recommendations for use of superabsorbent polymers in concrete construction, 2014 to present
- RILEM Technical Committee 261 CCF – Creep behaviour of cracked sections of fibre reinforced concrete, 2014 to present
- Member of the Scientific Committee of the 2017 *fib* symposium: High Tech Concrete: Where technology and engineering meet!, Maastricht, The Netherlands
- Member of the Scientific Committee of The Fourth International Conference on Strain-hardening Cement-based Composites SHCC4 in 2017, Dresden, Germany
- Member of the Scientific Committee of the 5th International Conference on Concrete Repair, Rehabilitation and Retrofitting, Cape Town, South Africa, 2018
- Member of the Scientific Committee of the International Workshop on Durability and Sustainability of Concrete Structures (DSCS), Moscow, Russia 2018

TEACHING EXPERIENCE:

- 2002 – 2006:** Teaching assistant for the following modules at Stellenbosch University: Informatics 244 (2002), Informatics 314 (2002), Strength of Materials 214 (2003-2004), Strength of Materials 244 (2003), Concrete Construction 344 (2005), Building Materials 254 (2004 - 2006)
- 2005 – 2008:** Structural Engineering Experimental Course, Stellenbosch University: Developing and teaching the course on undergraduate and postgraduate level
- 2007:** Building Materials 254, Stellenbosch University. Guest Lecturer at Holcim's Concrete Product Manufacturer's Conference
- 2008:** Theory of Structures 324, Building Materials 254, Stellenbosch University
- 2009:** Building Materials 254, Stellenbosch University. Guest Lectures, Technical University of Dresden, Germany
- 2010:** Theory of Structures 324, Building Materials 254, Strength of Materials 143, Stellenbosch University, Guest Lectures at University of Cape Town and Cement and Concrete Institute (ACT Course)
- 2011:** Theory of Structures 324, Building Materials 254, Stellenbosch University
- 2012:** Building Materials 254, Stellenbosch University
- 2013:** Building Materials 254, Strength of Materials 143, Stellenbosch University. Guest Lectures at University of Cape Town
- 2014:** Building Materials 254, Strength of Materials 143, Stellenbosch University, Postgraduate course on Cement-based Materials, Stellenbosch University, Guest Lectures at The Concrete Institute (ACT Course)
- 2015:** Building Materials 254, Strength of Materials 143, Stellenbosch University, Postgraduate course on Cement-based Materials, Stellenbosch University
- 2016:** Guest Lectures at The Concrete Institute (ACT Course), Postgraduate course on Cement-based Materials, Stellenbosch University, Strength of Materials 143, Stellenbosch University

OTHER EXPERIENCE:

- 2008 to present:** External examiner for 5 Master students
- 2008 to present:** Internal examiner for 6 Master students and 2 PhD students
- 2008 to present:** Reviewed 23 journal publications in ISI listed journals
- 2009 to present:** Reviewed international conference papers for 9 conferences

SCHOLARSHIPS AND AWARDS:

- 2001:** Prize for best project in Civil Engineering Informatics
- 2002 – 2003:** Stellenbosch University Postgraduate Merit Bursary
- 2002 – 2006:** Institute of Structural Engineering, Stellenbosch University – Scholarship for MSc and PhD studies
- 2004:** Ia-FraMCoS2004 Student Award of \$1000 to attend the Ia-FraMCoS 2004 conference in Vail, Colorado, USA. Awarded for "your accomplishments and your potential to contribute to the mission of Ia-FraMCoS"
- 2006:** DAAD scholarship for PhD research in Germany, Technical University of Kaiserslautern
- 2007:** Postdoctoral Fellowship, Stellenbosch University with title: *The design, characterisation and implementation of advanced cement-based composites in the South African Civil Engineering Industry*
- 2007:** Grant from Institute of Structural Engineering, Stellenbosch University for travelling to Europe for collaboration meetings with Dresden Technical University, Denmark Technical University and Delft Technical University
- 2007:** HL Reitz Medal for best postgraduate student in Civil Engineering, Stellenbosch University
- 2011:** Rector's Award for General Performance
- 2012:** Rector's Award for General Performance

- 2013:** Rector's Award for General Performance
- 2014:** Upcoming Researcher of the Year, Faculty of Engineering, Stellenbosch University
- 2015:** Top 25 Young Researchers award at Stellenbosch University
- 2016:** Top 25 Young Researchers award at Stellenbosch University

GRANTS AND PROJECT FUNDING: (£1 = R17)

- 2009 - 2012:** South Africa / Germany bi-lateral funding from NRF and BMBF for R300 000 (£18 000) over three years. Topic: *Objective experimental and Numerical Modelling of SHCC*
- 2009 – 2011:** THRIP research project titled: *Application of Low Volume Fibre Reinforced Concrete*. Project awarded for three years with a total budget of R720 000 (£42 000) for three years
- 2011 – 2015:** NRF Incentive Funding, R100 000 (£6 000) over five years
- 2012 - 2014:** THRIP research project titled: *Structural Use of Synthetic Fibres in Concrete*. Project awarded for three years with a total budget of R960 000 (£56 000)
- 2013 - 2018:** Industry funded research project titled: *Research in the field of Construction Materials*. Total funding of R6 477 000 (£381 000) over six years
- 2013 – 2015:** Collaborator of Edulink project: Joint Development of Courses for Energy Efficient and Sustainable Housing in Africa. Total funding of 440 000 Euro
- 2014:** Industry project on fibre reinforced concrete, R200 000 (£12 000)
- 2015 – 2016:** Industry project on performance of fibre reinforced concrete. R360 000 (£21 000)
- 2015 – 2016:** Project on fibre reinforced concrete roads, R250 000 (£15 000)
- 2016 – 2017:** Industry project on design software for fibre reinforced concrete software, R515 000 (£30 000)
- 2016:** Postdoctoral funding from Sub-Committee B of Stellenbosch University, R185 000 (£11 000)
- 2017 - 2018:** Newton Fund Award, United Kingdom for exchange of staff, £9 800
- 2017:** Erasmus + Staff Exchange Scholarship for visiting the University of Bath for one week
- 2017:** Oppenheimer Memorial Trust grant for travelling in Europe as part of sabbatical, R50 000
- 2008 – Present:** Numerous other smaller projects, totalling around R550 000 (£32 000)

Invited Presentations:

- Fibre Reinforced Concrete*, October 2007, Concrete Product Manufacturer's Conference, Organised by Holcim, Johannesburg, South Africa.
- Introduction to Fibre Reinforced Concrete*, October 2008, Monthly Technical Meeting of the Concrete Society of Southern Africa, Western Cape Branch.
- Fundamentals of Concrete Cracking and Non-Structural Cracking – Plastic Shrinkage and Settlement*, October 2012, ConCrax2012, Seminar of Concrete Society of Southern Africa, Johannesburg, Cape Town, Durban and Port Elizabeth, South Africa.
- Fundamentals of Concrete Cracking*, June 2013, Totally Concrete Expo, Sandton, South Africa.
- Understanding Fresh Concrete Behaviour*, December 2013, Faculty of Engineering Research Day, Stellenbosch University, South Africa.
- High Performance Concrete*, July 2014, Cape Town, Monthly Technical Meeting of the Concrete Society of Southern Africa, Western Cape Branch.
- Can Synthetic Fibres Save Concrete?* December 2014, Faculty of Engineering Research Day, Stellenbosch University, South Africa.
- Concrete: Friend or Foe?* March 2015, Inaugural Lecture, Stellenbosch University, South Africa.
- Concrete: Friend or Foe?* May 2015, Totally Concrete Expo, Sandton, South Africa.
- Concrete: Friend or Foe? A South African Perspective*, March 2016, Czech Technical University in Prague, Czech Republic.
- Fibre Reinforced Concrete: Can it solve your problem?* March 2017, University of Bath, United Kingdom
- Cracking of Concrete* May 2017, University of Bologna, Italy
- Fibre reinforced concrete - from fundamental behaviour to structural design*, May 2017, University of Bologna, Italy

POST-DOCTORAL FELLOWSHIPS

Tensile creep of cracked fibre reinforced concrete, Dr Adewumi J Babafemi, 1 May 2016 to 30 June 2017

POSTGRADUATE SUPERVISION:

| | |
|--------------------------------------|---|
| Masters (2 years research) | Christo Johan Adendorff (MSc 2008 - 2009) The time dependant cracking behaviour of strain hardening cement-based composites. |
|--------------------------------------|---|

- Riaan Combrinck** (MSc 2009 - 2010) Plastic shrinkage cracking in conventional and low volume fibre reinforced concrete.
- Christian Johannes Mouton** (MSc 2009-2011) Investigating the tensile creep of steel fibre reinforced concrete.
- Robert Jarrat** (MSc 2010-2011) Construction of insitu cast flat slabs using steel fibre reinforced concrete.

GPAG van Zijl (2016) Contributions to structural mechanics and durability in structural engineering.

SELECTED COMMERCIAL RESEARCH PROJECTS:

2004: Consani Engineering: Testing of corner posts for freight containers. A number of corner posts for freight containers were tested with different thicknesses to obtain the most economical design.

2004: BKS Consulting Engineers: Testing of masonry walls of new student residence of University of Stellenbosch. Samples of masonry walls of the new student residence at Stellenbosch University were taken and tested. Results were compared to reference masonry walls to report on quality of masonry units, mortar and building quality.

2004 : Photego: Testing of in-situ strain measuring instruments for strain determination in concrete beams. In-situ strain measuring instrument were cast in position in reinforced concrete beams. The readings were compared to the strain readings of strain gauges glued to the reinforcing while the beam was tested in flexure.

2004/5 : Zietsman Lloyd and Hemsted (PTY) LTD: Testing of repair methods for a large concrete channel. Different repair methods were tested which included glued laminates on concrete beams, laminate material testing and full scale tests of channel sections retrofitted with bonded laminates and Kevlar anchors.

2004-2008 : Managing the commercial testing service of Concrete Laboratory, Stellenbosch University. Managed the testing, reporting, invoicing and client liaison for the commercial service of the Concrete Laboratory, Stellenbosch University. Over 30 clients used this service during the period from 2004 to 2007.

2005 : Peri Wiehahn (PTY) LTD : Testing of extensions fitted to props. Props were tested to find the reduction of capacity due to a fitted extension.

2006 : BVi Consulting : Material testing of anchorage bolts. Tensile testing of the steel quality of anchorage bolts.

2007 : Hosaf Fibres : Investigation the effectiveness of Poly-Ester fibres as secondary reinforcing in concrete. Poly-Ester fibres manufactured by Hosaf Fibres were investigated for the possible application as secondary reinforcing in concrete. Different fibre types were investigated. The effectiveness of the fibres was also compared to fibres available in the South African market.

2008 : A Precast Concrete Company : Developing a Fibre Reinforced Concrete for specific applications. A Fibre Reinforced concrete was developed, optimised and tested for specific applications for a precast concrete company.

2008 : Hosaf Fibres : Investigation the effectiveness of Poly-Ester fibres for increasing the impact resistance of concrete. The effectiveness of Poly-Ester fibres manufactured by Hosaf Fibres for increasing the impact resistance of concrete was investigated.

2009 : Hosaf Fibres : Investigation the effectiveness of Poly-Ester fibres for increasing the resistance of plastic shrinkage cracking. A report for Agreement certification The effectiveness of Poly-Ester fibres manufactured by Hosaf Fibres for increasing the resistance of plastic shrinkage cracking. The report was compiled for the certification of Hosaf Fibres by Agreement.

2009 : A Precast Concrete Company : Evaluation of a precast flooring system according to SANS standards. A precast flooring system was evaluated to determine whether the system complies to SANS standards.

2010 : Precast Company : Development of FRC and manufacturing process for precast company. A high strength fibre reinforced concrete mix was developed for precast concrete units. The mix was adjusted to be compatible with a specific manufacturing process.

2012 : Contractor : Investigation into the cracking of concrete pavements. A concrete pavement showed significant cracking. Causes and prevention methods were investigated.

2013 : Manufacturer : Testing of mechanical properties and durability of glass fibre reinforced cement-based material.

2014 : Consulting Engineer : Testing of balustrade.

2014 : Mining Company : Testing of materials to be used as supplementary cementitious materials.

2015/6 : Local contractor : Fatigue and other testing of fibre reinforced concrete for a pavement application.

2016 : Formwork supplier : Testing of temporary support towers up to 10 meters for resisting service loads.
